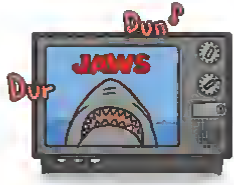
They are birds, sharks
and ghosts.

First, I really don't like
how birds look and they always scare me
when they fly suddenly.



And I think I started to fear sharks
after I saw the movie Jaws
when I was a kid.

I've never seen any ghosts
but...

Ghosts are scory.

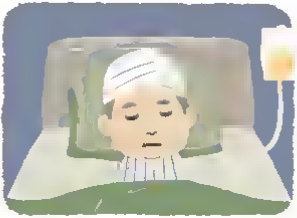
Like everyone,
I have a few things that
I'm afraid of.

So I ended up telling Mev a story
that is quite a common story in Korea.

A man had a terrible accident
so he was in hospital.

... I'm just afraid of ghosts because of some stories that I've heard before.

Unlike Penguin, Mev has a fear of neither birds, sharks nor ghosts.



One night, he woke up
because he heard some men
talking quietly

He was wondering who they were
so he opened his eyes a little and looked at
where the sound was coming from.

*Han-bok: Traditional Korean clothes
*Gat: Traditional hat that male adults used to wear

Then he sow that the two men
who were wearing black Han-boks
and Gats were talking next to his bed.

He was very scared
so he closed his eyes tightly
and pretended to sleep.
Soon he opened his eyes slightly
and looked at them again.

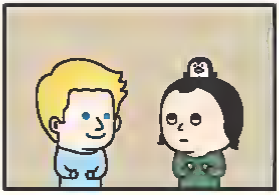
This time,
they were standing near
the next patient's bed.

He wished they would go away
as soon as possible and finally
he fell asleep again.

I said very seriously then
Mev answered me

Penguin..
W...why?

You are in the UK!



At that moment,
I thought that actually
there is something strange.

No TV programmes about
ghosts or scary stories
that I've heard,...

So I'm only scored of birds ond sharks now.

A foreigner ghost is just like a foreigner for me

... in the UK have ever said that they'd seen a Korean ghost!!!
